Aba, Abia State

## Summary

Dynamic and results-driven IT professional with a diverse background in corporate research, training, and project management, seeking a position in a nonprofit organization where I can leverage my expertise in IT programs and development. With a proven track record of delivering high-impact solutions and collaborating with cross-functional teams, I am passionate about using technology to drive innovation, enhance organizational efficiency, and foster positive change in communities. Recognized for my ability to strategically plan, lead, and execute complex projects, I bring a blend of technical proficiency and strong interpersonal skills to every initiative I undertake. My career journey has been marked by consistent achievements in leading IT-related projects, developing and maintaining strong relationships across cultures, and empowering teams to perform at their best.

## Experience

### Freelance Full-Stack Developer

Self Employed-Aba • AB

04/2021 - Present

- Built and deployed custom web applications for clients, focusing on user-friendly designs and responsive, scalable backend architectures.
- Worked with technologies like JavaScript, Node.js, Express, and MongoDB to create full-stack solutions.
- Designed and integrated APIs, improved user interfaces, and ensured smooth user experiences across devices.
- Enhanced client satisfaction by delivering projects on time and maintaining clear communication throughout the project lifecycle.

### Intern (CNC Machining & STEM Development)

Clintonel Innovation Centre (C.I.C.)-Aba, Abia State • Aba, Abia State

03/2023 - 09/2023

- About C.I.C.: Clintonel Innovation Centre is a leading technology hub in Nigeria, providing young innovators with access to resources, equipment, and training in CNC machining, STEM development, and entrepreneurship. The center fosters innovation and hands-on learning, offering a space for creative problem-solving and technical skills development.
- Key Responsibilities & Achievements:
- Gained practical experience in CNC machining, learning how to operate and maintain advanced manufacturing equipment.
- Participated in STEM development workshops, enhancing my understanding of cutting-edge technologies and innovation in the field.
- Contributed to hands-on projects, collaborating with team members to design and prototype solutions using various engineering tools.
- Developed skills in technical problem-solving, project planning, and applying theoretical knowledge to real-world scenarios.
- Engaged in learning activities that reinforced my interest in technology and engineering, preparing me for future technical roles.
